Waves & Mist Mountain Stay — Deep into the Western Ghats. Deep into Nature.

Your adventure begins along a rugged mountain trail, climbing deep into the **high ranges of the Western Ghats**. Accessible only by our **four-wheel-drive vehicles**, the journey itself becomes part of the experience as you slowly ascend through pristine mountain landscapes and dense tropical forests. At the end of this unforgettable trail awaits **Waves & Mist Forest Stay**—our secluded **200-acre destination surrounded by the deep forests of the Western Ghats**.

Feel the temperature drop as you climb higher, breathe the fresh mountain air, and experience the excitement of a true Western Ghats mountain journey from the comfort of a 4WD jeep. Once you arrive, leave the noise and rush of everyday life behind. Relax in the **cool, serene surroundings**, listen to the sounds of the forest, and experience nature at its most peaceful. For those who love to explore, a nearly **10-km estate road** winds through the property, offering long walks amid mountains, mist, forests and spectacular natural scenery.

The road may be rugged. The destination is serene.
